

**SIMPLE STEPS TO GROW
PATIENT RELATIONSHIPS &
IMPROVE LOYALTY
WITH HITEC GROUP &
THE TEXAS STAP PROGRAM**

IS YOUR STAP PROCESSING TAKING UP TO MUCH TIME?

Dear STAP Vendor,

Tired of the time intensive task of processing your STAP vouchers or having them denied? How about having to carry inventory of all the products in all your clinics... HITEC's new STAP Processing Program will allow your staff to focus on fitting hearing aids.

HITEC Group will process your STAP vouchers directly with your patients. This will eliminate the tedious task of your staff processing paperwork and eliminate any denials due to vouchers being processed incorrectly. This program will also eliminate any need for your clinics to carry any inventory.

HITEC will also work directly with your patients to ensure delivery of the products and send you your margin for each voucher filled.

There is absolutely no risk involved and this will ensure your patients continue to get free product at no cost to them and your office is properly compensated for your time. You will not have to be concerned with inventory and you are not responsible for completing any vouchers or dealing with the State.

Sincerely,

Brad Dodson
Director of Sales
Hitec Group International, Inc.

			REBATE	\$70.00

HERE'S HOW IT WORKS

- 1 HITEC supplies you with samples of each product available for display purposes.
- 2 Your Hearing Clinic continues to make the program available to all patients, completes applications and certifies for correct categories based on the packages above.
- 3 When the patient brings in the voucher the Front Office will determine the product selection with the patient, complete the simple product package order form and send it with the original voucher directly to **HITEC** in a prepaid envelope (provided).
- 4 **HITEC** will drop ship equipment directly to the patient (no need for inventory), confirm it's been received (via adult signature card) and provide support directly.
- 5 **HITEC** will then process the voucher with the State and pay the clinic (or corp) the agreed upon margin earned per voucher.
